PROFILE

Hello, I'm Zeeshan Javaid, a Full-Stack Developer with a dedicated focus on the FinTech and MedCare domains. Over 3 years, I've honed my craft, specializing in creating robust, innovative solutions using the latest technologies. My proficiency includes: Backend Development: Expertise in .NET Core, ensuring scalable and efficient server-side operations. Frontend Mastery: Proficient in ReactJs, JavaScript, Bootstrap, HTML, and CSS, creating seamless user interfaces. Database Management: Proficiency across SQL Server, SQLite, and MySQL, ensuring data integrity and optimal storage solutions. DevOps Prowess: Proficiently manage AWS, Azure, Docker, and GitHub pipelines for seamless deployment and maintenance. Add-In Development: Expertise in crafting Office-365 Add-Ins for Outlook, Word, and Excel, catering to corporate client needs. Key Skills: Backend: .NET Core Frontend: ReactJs, JavaScript, Bootstrap, HTML, CSS Database: SQL Server, SQLite, MySQL DevOps: AWS, DigitalOcean, Docker, GitHub pipeline Add-Ins: Outlook, Word, Excel Add-Ins

EDUCATION

Msc Artificial Intelligence and Robotics, Artificial Intelligence | Present
University of Hertfordshire

| | Sep 2015 - Jun 2019 |

National University of Computer and Emerging Sciences

EMPLOYMENT

Software Engineer. ASP.NET | Jun 2023 - Present
Devbasis, Lahore, Punjab, Pakistan

Dotnet Developer | Jan 2023 - Jun 2023
Falcon Consulting, Lahore, Punjab, Pakistan

Description:
- Developed and maintained web applications using ASP.NET, C#, and SQL Server.
- Integrated RESTful APIs and optimized database performance.
- Collaborated on UI/UX improvements and resolved bugs.
- Created documentation and provided user training.

Achievements:
- Delivered key projects, including a CRM system that enhanced client interactions.
- Improved application performance by 30% through code and database optimization.
- Strengthened security with advanced measures, reducing vulnerabilities.
- Awarded "Employee of the Month" for outstanding project contributions.

- Mentored junior developers, enhancing team skills and productivity.

Full-stack Developer
Mar 2022 - May 2023

Around the Budget, United States

As a Full Stack Developer at Around the Budget, I was responsible for designing and building robust, scalable web applications tailored to meet the unique needs of our clients. My role involved:

- **Collaborating with Cross-Functional Teams**: Worked closely with product managers, designers, and other developers to gather requirements, define project scope, and deliver high-quality solutions.
- **Implementing and Maintaining APIs**: Developed and maintained RESTful APIs to support front-end functionality and enhance overall system performance.
- **Ensuring Application Performance**: Conducted performance tuning and optimization, resulting in a 30% reduction in load times and improved application responsiveness.
- **Feature Development and Enhancement**: Led the development of key features, including a user engagement tool that increased user interaction by 25%.
- **Staying Up-to-Date with Technologies**: Embraced emerging technologies and best practices to keep our solutions modern and competitive.

Proficient in a variety of programming languages including React JS, ASP.NET, Python, Java, and JavaScript, I contributed to the continuous improvement and innovation of our web applications, ensuring exceptional results and client satisfaction.

Machine Learning Engineer
Jan 2018 - Jul 2018

Tradesout, Pakistan

As a Machine Learning Engineer, I have gained expertise in designing and implementing machine learning models for a variety of applications. My responsibilities have included training, testing, and fine-tuning machine learning models, as well as integrating them into production systems. I am skilled in Python, TensorFlow, and scikit-learn, and have a strong background in statistics, mathematics, and computer science. I am constantly seeking new opportunities to apply my skills and knowledge to solve challenging problems and improve the lives of users.

SKILLS

.NET Core	AWS
APIs	Bootstrap
CSS	Database
DevOps	Docker
GitHub	HTML
jQuery	JavaScript
Machine Learning	Azure
SQL Server	MySQL
Python	React JS
scikit-learn	Xamarin
